2027 AOAC INTERNATIONAL Official Methods℠ Program Fee Schedule

All fees are listed and required in U.S. dollars (USD).

The *Official Methods* ℠ program is AOAC INTERNATIONAL's premier method conformity assessment program, dedicated to evaluating candidate methods for adoption as AOAC Official Methods and inclusion in the *Official Methods of Analysis of AOAC INTERNATIONAL* (OMA). Beyond the evaluation of new methods, the program reviews method modifications and offers expert consulting services for the development of validation study protocols, preparation of validation study reports, and assessment of method readiness for successful advancement through the OMA approval process.

The program offers discounted pricing to method authors from government agencies, academic institutions, and organizations that hold Ambassador, Executive, or Affiliate-level AOAC Organizational Membership (OM). For more information on AOAC Organizational Membership and its benefits, please visit *https://www.aoac.org/membership/organizational-membership/*
