## Get Involved with Worldwide Analytical Communities

### About AOAC INTERNATIONAL Sections

AOAC encompasses 15 sections worldwide, representing four continents and over 90 countries outside of the United States. Sections provide opportunities for participants to share information, build professional contacts, expand leadership skills and gain practical management experience. Participating in Section activities (including technical programming, membership recruitment, educational conferences and promotion) will help you stay in touch with what's happening in your local area as well as what's happening in the industry.

Each AOAC Section holds meetings throughout the year, which features technical presentations and discussions by leading local and national experts. Your input is encouraged and information is provided in an informal and relaxed setting. Make the most of the opportunities provided by the AOAC Section network by contacting your section's representative and attending the next Section meeting in your area!

### AOAC Sections within the United States:
