

Organizational Affiliate Program AOAC INTERNATIONAL

The Highest Membership Level of Engagement and Involvement

About AOAC's Organizational Affiliate Membership Program

AOAC established the Organizational Affiliate (OA) program, which is the highest level of engagement and involvement in AOAC INTERNATIONAL, to promote the development of consensus standards for analytical communities. Organizations receive a valuable return on investment that includes the opportunity to meet with key players to help solve analytical problems faced by industry and government; attend Board of Directors and Official Methods Board meetings, where you can raise issues of interest; network with decision makers of other related companies; and make contact with key people in regulatory agencies. With this program, information flows directly from the supporting organization to the highest levels of AOAC INTERNATIONAL.

AOAC OAs are a cross-sector group representing food and beverage, dietary supplements, government agencies, and test kit manufacturers. The OA program allows corporations, government agencies, and academic institutions to support the Association's mission of advancing the global chemistry and microbiology analytical community by promoting methods validation and quality measurements.

Organizational Affiliates – The Leadership Circle

The Organizational Affiliate Program provides a single level of support - the Leadership Circle, which is \$10,000 annually, and is designed for organizations seeking the highest level of engagement and involvement in AOAC INTERNATIONAL.

To view AOAC's current list of Organizational Affiliate members please visit our website at:

<http://www.aoac.org/membership/ListOrgAffiliates.htm>

*Individual Member Representatives from each organization are entitled to all of the benefits of individual membership, including: complimentary access to the *Official Methods of Analysis (OMA)* online, online membership directory, and eCommunities, subscription to *Inside Laboratory Management*, AOAC's bi-monthly magazine, direct access to technical information, discounted member pricing on registration for meetings, training and publications, and network with colleagues in over 90 countries.
